B. Form component

What is this event about?

MarketScan leaders will discuss how the life sciences industry can leverage cloud-based real-world data (RWD) to transform their generation of real-world evidence (RWE). The discussion will cover the challenges in the industry that led to the adoption of cloud-based solutions, the benefits of a cloud-based RWD platform, and how the science companies can successfully implement their actions to gain valuable insights and best practices to help them make informed decisions about the future of their RWE generation.

What you will learn:

- The benefits of cloud-based Real-world Data (RWD) for life science companies.
- The challenges facing life science companies in generating RWE.
- How cloud-based RWD solutions can improve their sales, operational efficiency, and scalability.
- Examples of successful implementation of cloud-based RWD and the real-world impact on the organization and patients.
- A roundtable with our industry leading experts recapping the benefits of cloud-based RWD.
